

A take on Cambio

- Pablo Gonzalez -

Goal

Have the lowest score on your cards. The round ends when one player calls “Cambio”; then everyone counts points, and the lowest score wins!!

How to play?

1. Each player starts with 4 cards face down. Players check the two cards closest to them to memorise them before the game starts.
2. Draw the top card from the deck.
3. **CHOOSE**: swap it with one of your face-down cards (the old one goes face-up on the discard pile), **OR** discard it directly.
4. If the card discarded has a **POWER**, it triggers now.
5. Play passes to the next player.

NOTE: You can attempt a **MATCH** in your turn or your opponent's turn.

Matching

Matching is the main mechanic in Cambio. Whenever you see a card faced up in the discard pile with the same numeric value as one of yours or your opponents, you can attempt a match. If successful, it will get rid of one of your cards, which will make your overall score even lower.

Rules:

1. Each player has only 1 match attempt per turn, even if the match **IS NOT** successful.

2. You **CAN ONLY MATCH** if your opponent **IS NOT ALREADY RESOLVING A POWER EFFECT IN A CARD**. This means that if you want to match in your opponent's turn, you can only do it at the beginning of their turn.

2.If you match one of your opponents card, as a **reward**, you can give it one of your cards; you decide which one.

2.If you match a wrong card, you will get a **penalty card** that will be added to the sides of your initial hand (max 4 penalty cards).

How to match: In this game, you match by clicking the card you want to match. This is for your or your opponent's cards.

Card values

2 – 10: Face value

Any Jack: 10 points

Queens ♣ ♠ ♥ ♦: 10 points

Black Kings ♣ ♠: 10 points

Red Kings ♥ ♦: -1 points

Ace: 1 point

Joker: 0 points

Powers

7 – 8 Peek: Look at one of your cards in secret.

8 – 9 Spy: Look at one of your opponent's cards in secret.

Jack/Queen Blind Switch: Swap one of your cards with your opponent's without seeing their value.

Black King Look&Switch: Swap one of your cards with your opponent's and see their values.

NOTE: Powers can resolve even after a player called "Cambio"; keep that in mind! Your opponent may swap one of your cards at the end and flip the game around.
